To  
Shri Narendra Modiji  
Honorable Prime Minister of India  
Government of India  
New Delhi

Sub: Seeking your encouragement to further energise the frontline Covid warriors of our Nation.  
Most Respected PMji,

Warm Greetings from the Medical Profession of India, Indian Medical Association & Association of Physician of India.

We, Doctors are overwhelmed by your support & recognition of our services to humanity. We commit further to offer our dedicated services to save the sick of our country in times of Covid Pandemic. Your appreciations by Candle light ceremony, flower showering through Helicopter will be ever green in our memories.

In our timeless services to the sick, nearly 1300 Doctors have lost their lives in the Covid war I & II. What is distressing us is the **violence on Healthcare**, Verbal, Physical & Mental violence.

We are thankful to you Sir for Amendment Epidemic Disease Act in 2020 to

**“Save the Saviours”**

As you know well it is a seasonal protection & not Stringent too

21 States in our Nation have **Hospital Protect Act**. They are not uniform, & the clauses are very loose.

Indian Medical Association had a **National wide Protest Day on 18<sup>th</sup> June** against the violence on Healthcare Personal & Establishment. We recognize your directions to States through Home Secretary to strictly handle the trouble mongers.

**In this context we place two humble requests before you Sir:**

1. **National Healthcare Protection Act** with stringent clause to be in the place. It should to be a Non Bailable offence with imprisonment of at least 7 years. The time for filling FIR & conclusion of case also to be included.

The Interministerial committee formed by our Government in 2019, drafted a “**Health services personal & clinical Establishment Protection**” **Bill 2019**, displayed in the website for 30 days for comments but never implemented.

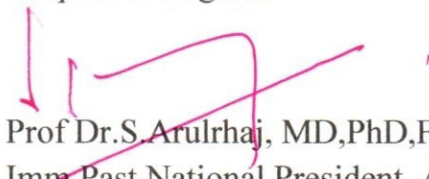

We, Medical Professionals of India request you Sir to make the “**Health services personal & clinical Establishment Protection**” Bill 2019 into an Act immediately & direct All States of India to implement.

2. **July First is Doctors Day** in the name of Dr BC Roy, Physician, Political Leader, CM of WB & Health Activist.

On this occasion we whole heartedly request our Honorable PMji, to address The Medical Profession of the Nation. This will infuse more energy & enthusiasm into us making to further effectively serve the sick of our country.

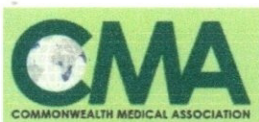

We are confident of the support & consent of our loving People’s Prime Minister, Shri Modiji

Thanking you Sir  
Respect & Regards
